

DO
YOU
FEEL
LIKE

YOUR VEHICLE HAS
A BULLS-EYE ON IT!

Dents will happen  VALUE is having Dent Armor® when they occur.

Your Vehicle is Exposed

from the moment you leave the dealership.

Why Do We Offer Dent Armor®?

Everyone gets dents.

How Do We Know?

Trade-Ins. Unfortunately, it's the most common appearance problem we see. Look at a used car value guide and you'll see the impact dings and dents have on the value of a vehicle. The difference between "clean" and "rough" value of a 3 year old vehicle can be thousands of dollars.

Why Do Most Customers "Live" with dings and dents?

Dings and Dents are expensive to fix. However, they are even more expensive not to fix. The cost of depreciation can negatively impact your trade-in or lease return far beyond the cost of the Dent Armor® program.

With the Dent Armor® program you get:

- Repairs of Dings or Dents (using Paintless Dent Repair)
- All Vertical Sheet Metal Panels are Covered
- No Fees or Deductibles
- Easy Online Claims Process
- Certified Dent Technicians

Paintless Dent Repair (PDR) What is PDR?

PDR or Paintless Dent Repair is a skilled procedure used to remove minor dents and dings from the surface of your vehicle. Your vehicle's original finish remains intact, no bondo, fillers or repainting required.

Don't Live With Dents!

Dents and dings are caused from common everyday threats such as door dings and shopping cart damage. The process to request PDR service online or through our toll-free number with Dent Armor® is fast and convenient.
